Sammendrag

Abstract

Innhold

1   Introduction

This is the introduction, we will write something about why/how/what we are doing.

2   Survey of related material

looking into related material

- browser canvasing?
- stuff

3   results

if we do any practical experiments, what did we learn. Its important to keep the key elements of digital forensics in mind:

- evidence integrity
- Chain of custody
- Forensically sound

outgoing smtp = cleartext tcpdump -vv -x -X -s 1500 -i eth1 'port 25'

http = cleartext.

4   conclusion

yabba-dabba-doo, this is what we found:

- stuff
- more stuff

A   apendix; if applicable...
